This message is for all Kitchen Angels volunteers.

If you recently travelled, either domestically or internationally (by car, plane, train or other means), please contact Lauren immediately so she can enlist a substitute volunteer for your shift.

Current recommendation from the New Mexico Dept. of Health state that individuals who have travelled outside of the state be in self-isolation for a period of 14 calendar days. If you have or develop any respiratory symptoms (cough, shortness of breath) or fever, you need to call 855-600-3453 and press option 2.

Consequently, we are asking all volunteers who are returning from travel to stay home for two weeks before returning to Kitchen Angels. As you know, our clients are medically fragile and we are taking extra precautions to ensure their safety as well as yours, and the safety of our other volunteers and our staff.

Thank you for your understanding. For current updates on the COVID-19 pandemic, please visit cv.nmhealth.org.
